

Burundi solar energy storage power station outage

Did a Burundi gas station run out of fuel?(AP Photo/Berthier Muugirraaneza) A gas station that ran out of fuel is seen in Bujumbura, Burundi, Thursday, June 6, . Some businesses have invested in generators, but they struggle to find fuel to power them. How much power does Burundi have?Burundi's installed electrical capacity stands at about 115 megawatts, and less than 15% of the country's 12 million people are connected to the national grid, according to official figures. The country's 10-year development plan until says 400 megawatts are needed to meet industrialization goals. How does Burundi's erratic power affect the Associated Press?The erratic power in Burundi "has an impact on the reputation of the company." The Associated Press receives financial support for global health and development coverage in Africa from the Bill & Melinda Gates Foundation Trust. The AP is solely responsible for all content. Why are Burundians losing money?Residents say the most pressing issue to address these days is the unreliable power supply, which can shut down business across the country for hours on end. From hospital administrators to hoteliers, Burundians told The Associated Press they are losing money -- and the government will, too, when it's time to collect taxes. Why did Burundi close its border with Rwanda?Also in January, however, complications arose. Burundi closed its border with Rwanda, accusing its neighbor of backing rebels, which Rwanda denied. Burundian authorities have said the border closure is not responsible for the widespread commodity shortages as most trade comes in via Congo, but an important trading partner has been affected. Is Burundi a stable country?Current President Evariste Ndayishimiye has vowed reforms, and slowly, partners like the European Union and United States have eased sanctions. Burundi has been on a path of relative stability. In January, the World Bank announced a new grant of up to \$40 million to help the government avert acute commodity shortages.
