

Composition of Bhutan's outdoor communication battery cabinet system

Outdoor standardized cabinet schemes for small stations in indoor distributed base stations include: outdoor standardized cabinet (single cabinet), embedded power supply, storage battery, BBU equipment and transmission equipment, and RRU is located outside the antenna. The total power consumption of the system is 400W~1000W, the batteries are configured according to 10-hour backup, and two groups of 100Ah/12V or 150Ah/12V batteries can form a base station with a single cabinet, which covers an area of about 1 m², and the maintenance space is about 2.5 m², saving an area of 90%.

Outdoor Cabinet Systems - Bhutan Eco Solution

Ease of Use: Fast and easy telecom site deployment compared to traditional shelters. **High integration:** Integrated cabinet to house BTS, other communications ltd., DC power systems, batteries. Cable entries are from IP65 protective shell of outdoor communication cabinet

Outdoor Cabinet Description

Outdoor Cabinet Features

Reasons For Choosing Us

This cabinet system is designed to provide a safe and clean environment for standby power supply, communication, IT or industrial equipment in harsh or outdoor environments. Typical applications in
