

## Huawei Sri Lanka Power Energy Storage Project

Huawei Celebrates Sri Lanka's 1 GW Solar Energy Milestone

The company's focus on developing cutting-edge solar energy and storage technologies will be crucial in helping Sri Lanka meet its future energy needs while also contributing to global efforts to combat climate change. Huawei celebrates Sri Lanka's 1 gigawatt solar energy milestone. Our journey in solar PV has been promising, and we are eager to share our developments in energy storage systems, smart PV controllers, EV chargers, and large-scale energy storage projects.

35 firms chase CEB battery deal as cost fears mount. Eventually, we can visualise a 'Clean Sri Lanka' with a zero carbon footprint and a citizenry self-sufficient in renewable power.

**HUAWEI'S NEW DIGITAL POWER BUSINESS FOR SUSTAINABLE SRI LANKA**

The government of Sri Lanka has entered into a power purchase agreement (PPA) with Australian firm United Solar Group (USG) for a major floating solar power (FPV) and storage project. SLSEA, SIA and Huawei Collaboration for Sri Lanka's Green Energy

The conference concluded with a resounding call for collective action, emphasizing the vital function of technology, regulation, and collaborative efforts in steering Sri Lanka toward a greener, more sustainable future.
