

Japan Grid Energy Storage Project

A total of 27 projects was awarded 34.6 billion yen in subsidies through METI's FY2024 program for supporting the expansion of renewable energy through introduction of energy storage, Sustainable Open Innovation Initiative (SII), the association responsible for implementing Toyota Tsusho's Eurus Energy and Terras Energy were among the selected subsidy recipients. GSSG Chikuden secures a \$400 million investment from Vision Ridge Partners to develop utility-scale battery storage across Japan. This strategic move aims to fortify the nation's grid, integrate more renewables, and accelerate

Gurin Energy is developing a pipeline of utility-scale battery energy storage system (BESS) projects to enable greater flexibility of the grid and support the increased use of renewable energy in Japan. This includes the announced 500MW, 2GWh BESS capacity, which is currently under development.

27 grid-scale BESS projects secure 34.6B yen

The renewables-rich Hokkaido and Kyushu TSO areas saw the largest number of awarded projects with nine and six, respectively. Four were awarded in the Tokyo TSO area, three in Chubu, two in Kansai and

Matsuyama Battery Energy Storage System, utilizing Hitachi's

This project marks Hitachi's first delivery of a grid energy storage system in Japan. The entire process-from design and procurement to installation and testing-was seamlessly

Japan's Energy Grid Fortified by \$400M Battery

GSSG Chikuden secures a \$400 million investment from Vision Ridge Partners to develop utility-scale battery storage across Japan. This strategic move aims to fortify the nation's grid, integrate more

Japan: 1.3GW of battery storage contract awards

A total of 26 battery energy storage projects in Japan have been selected for contracts through the Long-Term Decarbonisation Power Source Auction (LTDA) for

GSSG Chikuden Secures \$400M for Japan Energy Storage

GSSG Chikuden launches with a \$400 million investment from Vision Ridge Partners to develop utility-scale battery storage systems across Japan. This strategic move

Japan Energy Storage Policies and Market Overview

Projects led by Hitachi Energy and JAPEX are already deploying batteries for grid stability and renewable integration. As policy, technology, and decarbonization goals

Japan Battery Energy Storage System

Gurin Energy is developing a pipeline of utility-scale battery energy storage system (BESS) projects to enable greater flexibility of the grid and support the increased use of renewable energy in Japan. This

Japan's first fund dedicated to grid storage batteries begins full

The fund aims to "maximize the use of renewable energy sources," "stabilize the supply and demand of electricity," and "expand the energy storage plant market and establish a financing

Samsung group and Japan power provider to launch energy

TOKYO -- Japanese power provider Erex and South Korea's Samsung group will soon establish a joint venture to develop power storage units across Japan to support the

How Japan is Driving BESS Investment

The increasing generation of renewables on the Japanese grid has led to various support policies and CAPEX subsidy schemes to support the deployment of grid-scale Battery Energy Storage (BESS).

27 grid-scale BESS
