

Latest on Sierra Leone's new energy storage requirements

Freetown, Sierra Leone | 10 April : The Republic of Sierra Leone today announced the signing of a Memorandum of Understanding with Hecate Global Renewables (HGR), and Africa50 to develop 100 MW of Renewable Energy projects including Battery Energy Storage. Currently the country has an installed power capacity of 0.3 GW. Achieving 100% electrification by (11 million people to be electrified) will require 440 MW in total of mini-grids (132 MW), solar home systems (13 MW) and grid reinforcements (295 MW). By , approximately 4.5 GW of hydropower.

State House, Freetown, Thursday, 5 June - In a landmark step toward sustainable development and inclusive energy access, His Excellency President Dr. Julius Maada Bio is set to officially launch the Salone Off-grid Renewable Energy Acceleration Initiative (SOGREA), a EUR34 million (approximately).

Freetown, 5th June : In a pivotal step towards national development and sustainable energy access, H.E. President Julius Maada Bio, President of Sierra Leone, officially launched the Salone Off-Grid Renewable Energy Acceleration (SOGREA) Initiative. This landmark initiative, funded by the Yumkella revealed that the government is focused on immediate solutions, including procuring 10 megawatts of electricity from Guinea, 27 megawatts from Ivory Coast, and 50 megawatts from Ghana. These measures aim to mitigate current energy shortfalls within six months.

In the next 12 months, an

Freetown, Sierra Leone | 10 April : The Republic of Sierra Leone today announced the signing of a Memorandum of Understanding with Hecate Global Renewables (HGR), and Africa50 to develop 100 MW of Renewable Energy projects including Battery Energy Storage Systems ("BESS"). The signed Memorandum Bridging the healthcare gap in Sierra Leone. In Sierra Leone, which has been reported to have a 26% electricity access rate, the electrification of healthcare facilities remains an issue. With their need for a stable energy supply, inability in Sierra Leone's forestry sector. The renewable

Sierra Leone's President Julius Maada Bio To Launch 830 Million SOGREA aims to increase energy access in rural communities across the country by , deploying at least 5.2 megawatts peak (MWp) of solar generation capacity through
