

# Montenegro Power Grid Energy Storage Equipment Procurement

Bids must be submitted via the ESJN electronic public procurement platform no later than October 15, , by AM. This project is part of EPCG's broader BESS rollout across four strategic locations, leveraging existing grid infrastructure. The utility is procuring two grid-scale battery storage systems to the tune of EUR 48 million (\$55.9 million). EPCG, Montenegro's largest electricity provider, is investing in two four-hour battery energy storage systems (BESS) to strengthen grid resilience and balance supply and demand. Each EPCG, a utility and distribution network operator (DNO) in the Southeast European country of Montenegro, is looking to add 300MW of BESS to its grid. EPCG, the Electric Power Company of Montenegro, will launch a public tender for the procurement of 300MWh of battery energy storage system (BESS) Montenegro's state-owned power utility, Elektroprivreda Crne Gore, has launched a tender for the procurement and installation of two battery energy storage systems with a total capacity of 60 MW/240 MWh. Elektroprivreda Crne Gore (EPCG) is seeking a partner for the design, supply, installation Montenegro's power utility, Elektroprivreda Crne Gore (EPCG), is preparing to open a significant tender for the procurement of battery energy storage systems (BESS) with a total capacity of 240 MWh. This initiative is part of the country's broader strategy to enhance its energy infrastructure and State-owned utility Elektroprivreda Crne Gore (EPCG) has launched an international tender for two commercial and industrial energy storage installations, each designed to deliver 30 MW of power and store up to 120 MWh of energy. The two four-hour battery storage projects will be located at the EPCG Montenegro's state-owned electric utility, Elektroprivreda Crne Gore (EPCG), announced plans to launch a call for tenders to procure 300 MWh of battery energy storage systems (BESS), as part of its ongoing efforts to enhance energy infrastructure. The tendering process is scheduled to begin in Montenegro utility launches 240 MWh battery The batteries will be installed at the site of the metal processing company EPCG Zeljezara Niksic. The tender covers the full project scope - including design, equipment supply, construction, Montenegro utility EPCG to launch 300MWh BESS EPCG, the Electric Power Company of Montenegro, will launch a public tender for the procurement of 300MWh of battery energy storage system (BESS) technology before the end of the year, said Montenegro's power utility seeks contractor for two battery Montenegro's state-owned power utility, Elektroprivreda Crne Gore, has launched a tender for the procurement and installation of two battery energy storage systems with a total Montenegro's EPCG Set to Launch Major Battery Montenegro's power utility, Elektroprivreda Crne Gore (EPCG), is preparing to open a significant tender for the procurement of battery energy storage systems (BESS) with a total capacity of 240 MWh. Montenegro Launches 240 MWh Battery Energy Storage State-owned utility Elektroprivreda Crne Gore (EPCG) has launched an international tender for two commercial and industrial energy storage installations, each Montenegro: EPCG to procure 300 MWh of battery storage Montenegro's state-owned electric utility, Elektroprivreda Crne Gore (EPCG), announced plans to launch a call for tenders to procure 300 MWh of battery energy storage Montenegro's EPCG Set to Open Tender for 300 MWh Battery Montenegro's state-owned power utility, Elektroprivreda Crne Gore
