

## New Energy Storage System Expansion Project

MINNEAPOLIS (Nov. 3, ) -- Xcel Energy plans to build the Midwest's largest battery energy storage site at the Sherco Energy Hub in central Minnesota. Constellation Offers Maryland a Menu of New Generation Options Constellation today announced a long-range proposal to invest in up to 5,800 megawatts of power generation and battery storage projects in Maryland to meet rising Solar, battery storage to lead new U.S. generating capacity In , capacity growth from battery storage could set a record as we expect 18.2 GW of utility-scale battery storage to be added to the grid. U.S. battery storage already achieved record Xcel Energy to build Upper Midwest's largest battery storage site MINNEAPOLIS (Nov. 3, ) -- Xcel Energy plans to build the Midwest's largest battery energy storage site at the Sherco Energy Hub in central Minnesota. The project is among a series of U.S. Energy Storage Industry to Invest \$100 Billion in Today's investment commitment aims to advance a manufacturing expansion in the United States that could enable American-made batteries to satisfy 100% of domestic energy storage project Zinc-Battery Maker Eos Energy to Invest \$353M in Pennsylvania Eos Energy Enterprises, a manufacturer of zinc-based battery energy-storage systems, will relocate its headquarters from Edison, N.J., to Pittsburgh and expand production Darden Clean Energy Project: The World's Largest Battery The California Energy Commission (CEC) has given the green light to the Darden Clean Energy Project (DCEP), now officially the largest battery energy storage system in the Energy Department Pioneers New Energy Storage To that end, OE today announced several exciting developments including new funding opportunities for energy storage innovations and the upcoming dedication of a game-changing new energy Understanding the US energy storage boom U.S. battery storage investments and capacity additions to the grid have picked up pace in the past years. Since , ~15 GW of batteries have been added, the equivalent of roughly 15 nuclear power plants. RWE completes three U.S. battery storage projects RWE continues to deliver on its Growing Green Strategy, further expanding its green energy portfolio in the U.S. with the recent completion of three new battery energy storage systems (BESS) totaling Constellation Offers Maryland a Menu of New Generation Options Constellation today announced a long-range proposal to invest in up to 5,800 megawatts of power generation and battery storage projects in Maryland to meet rising Zinc-Battery Maker Eos Energy to Invest \$353M in Pennsylvania Expansion Eos Energy Enterprises, a manufacturer of zinc-based battery energy-storage systems, will relocate its headquarters from Edison, N.J., to Pittsburgh and expand production Darden Clean Energy Project: The World's Largest Battery Energy Storage The California Energy Commission (CEC) has given the green light to the Darden Clean Energy Project (DCEP), now officially the largest battery energy storage system in the Energy Department Pioneers New Energy Storage Initiatives To that end, OE today announced several exciting developments including new funding opportunities for energy storage innovations and the upcoming dedication of a game Understanding the US energy storage boom U.S. battery storage investments and capacity additions to the grid have picked up pace in the past years. Since , ~15 GW of batteries have been added, the equivalent of RWE completes three U.S. battery storage projects in Texas and RWE continues to deliver on its Growing Green Strategy,

## New Energy Storage System Expansion Project
