

Outdoor Base Station Precautions

Does my Wyze Cam Outdoor need a base station? Unlike other Wyze cameras, your Wyze Cam Outdoor must be connected to a Base Station to work. This article explains why. Without a Wyze Base Station, the camera's range would be limited to that of the local Wi-Fi. Since the effective range of consumer-grade routers can vary, we wanted to make sure that users had a consistent experience. How far should the Xiaomi outdoor camera base station be from the camera? A: The distance between the Xiaomi Outdoor Camera Base Station and the camera should be within 15 meters to maintain smooth communication.

8. Q: What to do if the microSD card cannot store videos, delete videos cyclically and conduct formatting in the Xiaomi Outdoor Camera Base Station?

1. How do I set up a Wyze base station? In the Wyze app, tap on your Wyze Base Station. Tap on the Settings gear on the top right. Tap Device Info > Wi-Fi Network. Follow the on-screen steps to finish the setup. Now that your Wyze Base Station is all set up, it's time to add your Wyze Cam Outdoor. Move on to the next article, Wyze Cam Outdoor Setup Guide.

Can unauthorized people access a base station? The antennas are installed in such a way that unauthorized people do not have access to the area where the limits may be exceeded. This holds true whether the base station is part of a 2G (GSM), a 3G, a 4G (LTE) or a 5G network. What if the Xiaomi outdoor camera base station fails? A: The Xiaomi Outdoor Camera Base Station will try to reconnect automatically after a network outage. After the successful connection, the indicator will keep in blue. If the reconnection fails for a long time, please restart the base station.

5. Q: What are the precautions for using a microSD card in the Xiaomi Outdoor Camera Base Station?

1. What happens if a base station is stolen? This means that even if the Base Station or camera are stolen, they can't be added to someone else's account or used until the original user deletes it from theirs. We've included a microSD port in the Base Station itself so that you can backup all cloud recordings and cloud thumbnails from your Wyze Cam Outdoor. Prolonged direct sunlight can heat the inside of your camera past its maximum operating temperature of 122°F (50°C). Avoid directly sunlight where possible and only use your camera in environments within its operating temperature range: -4°F to 122°F (-20°C to 50°C). Prolonged direct sunlight can heat the inside of your camera past its maximum operating temperature of 122°F (50°C). Avoid directly sunlight where possible and only use your camera in environments within its operating temperature range: -4°F to 122°F (-20°C to 50°C).
