Which portable power station should I buy?If you want a portable power station that's lighter than our upgrade pick, often costs less, and adds a small light, and you don't mind that it has less power, a single handle, and fewer outlets and charging ports: Get the Jackery Explorer 880. It weighs 21.8 pounds, and has an ergonomic handle on top and a small light built into the side. What should I look for in a portable power station?We also look for protective features such as port covers to keep out harmful dust and moisture. Informative display: Most portable power stations offer a battery meter to show you how much charge they have left, but we prefer displays that provide a precise percentage and other useful data. How do I Choose an outdoor outlet?When adding an outdoor outlet, be sure to choose an outdoor-rated, weatherproof model with built-in, high-sensitivity GFCI. Whether single or duplex, all exterior outlets should have spring-loaded covers to protect them from weather, pests, dirt, and most importantly moisture. How do I install an outdoor outlet?When adding an outdoor outlet, look for a conveniently located indoor outlet to connect to with the wiring. Drill a hole through the house wall and feed the wiring in close to the indoor outlet. Fit the mounting box for the outdoor outlet over that hole.
